Amy K. Mettman, M.D.

Otolaryngology-Head and Neck Surgery

DISCLOSURE AND CONSENT **TYMPANOSTOMY WITH TUBE INSERTION** **WITH OR WITHOUT ADENOIDECTOMY**

THE PATIENT: You have the right, as a patient, to be informed about your condition and the recommended surgical procedure to be used so that you can make the decision whether or not to undergo the surgery after knowing the risks and hazards involved. This disclosure is not meant to scare or alarm you. It is simply an effort to make you better informed so that you may give or withhold your consent to the procedure.

I voluntarily request my physician, _____, to treat my condition which has been explained to me as:

Fluid and/or infection behind eardrums with pain and/or decreased hearing.
Enlargement of adenoids.

I understand that the following surgical procedure is planned for me and I voluntarily consent and authorize this procedure:

Tympanostomy with tube insertion.
Adenoidectomy.

I understand that my physician may discover other or different conditions, which require additional or different procedures than are planned. I authorize said physician to perform such procedures, which are advisable in his/her professional judgment.

Just as there may be risks and hazards in continuing my present condition without treatment, there are risks and hazards related to the performance of the surgical procedure planned for me. I realize that common to surgical procedures is the potential for infection, blood clots in veins and lungs, hemorrhage, allergic reactions, and even death. I also realize that the following risks and hazards may occur in connection with this procedure:

1. Perforation of eardrum requiring further surgery.
2. Recurrent fluid and/or infections.
3. Tubes may work out of eardrum in short period of time.
4. Ear pain.
5. Throat pain (if Adenoidectomy performed).

I have been given the opportunity to ask questions about my condition, risks of no treatment, the surgical procedure to be performed, and the risks and hazards involved, and I have sufficient information to give this informed consent. I certify that this form has been fully explained to me, that I have read it or have had it read to me, that the blank spaces have been completed, and that I understand its contents.
